

Bibliography

Compiled by Ann Wintle

From 1st July 2005 to 31st December 2005

- Adamiec, G., Garcia-Talavera, M., Bailey, R. M., and de la Torre, P. (2004). Application of a genetic algorithm to finding parameter values for numerical simulation of quartz luminescence. *Geochronometria* **23**, 9-14.
- Anders, M. D., Pederson, J. L., Rittenour, T. M., Sharp, W. D., Gosse, J. C., Karlstrom, K. E., Crossey, L. J., Goble, R. J., Stockli, L., and Yang, G. (2005). Pleistocene geomorphology and geochronology of eastern Grand Canyon: linkages of landscape components during climate changes. *Quaternary Science Reviews* **24**, 2428-2448.
- Attanasio, D., Platania, R., and Rocchi, P. (2005). The marble of David of Michelangelo: a multi-method analysis of provenance. *Journal of Archaeological Science* **32**, 1369-1377.
- Bailiff, I. K., Stepanenko, V. F. et al. (2005). Retrospective luminescence dosimetry: development of approaches to application in populated areas downwind of the Chernobyl NPP. *Health Physics* **89**, 233-246.
- Ballarini, M., Wallinga, J., Duller, G. A. T., Brouwer, J. C., Bos, A. J. J., and Van Eijk, C. W. E. (2005). Optimizing detection filters for single-grain optical dating of quartz. *Radiation Measurements* **40**, 5-12.
- Boardman, J. B., Holmes, P. J., Rhodes, E. J., and Bateman, M. D. (2005). Colluvial fan gravels, depositional environments and luminescence dating: A Karoo case study. *South African Geographical Journal* **87**, 73-79.
- Briant, R. M., Bateman, M. D., Coope, G. R., and Gibbard, P. L. (2005). Climatic control on Quaternary fluvial sedimentology of a Fenland Basin river, England. *Sedimentology* **52**, 1397-1423.
- Burbidge, C. I., Duller, G. A. T. and Roberts, H. M. (2006). D_e determination for young samples using the standardised OSL response of coarse-grained quartz. *Radiation Measurements* **41**, 278-288.
- Busschers, F. S., Weerts, H. J. T., Wallinga, J., Cleveringa, P., Kasse, C., de Wolf, H., and Cohen, K. M. (2005). Sedimentary architecture and optical dating of Middle and Late Pleistocene Rhine-Meuse deposits - fluvial response to climate change, sea-level fluctuation and glaciation. *Netherlands Journal of Geosciences* **84**, 25-41.
- Chang, H., Zhang, P. Z., An, Z. S., Wang, X. L., Qiang, X. K., and Fu, C. F. (2005). Formation of the Yazhi Spring Stream and its significance on tectonics-climate on the northern slope of Kunlun Mountains. *Chinese Science Bulletin* **50**, 2063-2068.
- Chruscinska, A., Lankauf, K. R., Luc, M., Oczkowski, H. L., Przegietka, K. R., and Szmanda, J. B. (2004). Evolution of St. Laurent Mountain near Chelmno based on luminescence. *Geochronometria* **23**, 27-34.
- Chruscinska, A., and Przegietka, K. R. (2005). Quartz TL decay due to optical bleaching. *Geochronometria* **24**, 1-6.
- Coppa, A., Grün, R., Stringer, C., Eggins, S., and Vargiu, R. (2005). Newly recognized Pleistocene human teeth from Tabun Cave, Israel. *Journal of Human Evolution* **49**, 301-315.
- De Corte, F., Umans, H., Vandenberghe, D., De Wispelaere, A., and Van den Haute, P. (2005). Direct gamma-sepectrometric measurement of the ²²⁶Ra 186.2 keV line for detecting ²³⁸U/²²⁶Ra disequilibrium in determining the environmental dose rate for the luminescence dating of sediments. *Applied Radiation and Isotopes* **63**, 589-598.
- Fattahi, M., and Stokes, S. (2005). Dating unheated quartz using a single aliquot regeneration-dose red thermoluminescence protocol (SAR RTL). *Journal of Luminescence* **115**, 19-31.
- Filho, L. T., Ferraz, G. M., and Watanabe, S. (2005). EPR and TL studies of phenakite crystal and application to dating. *Nuclear Instruments and Methods B* **229**, 253-260.

- Forman, S. L., Marin, L., Pierson, J., Gomez, J., Miller, G. H., and Webb, R. S. (2005). Aeolian sand depositional records from western Nebraska: landscape response to droughts in the past 1500 years. *The Holocene* **15**, 973-981.
- French, H. M., Demitroff, M., and Forman, S. L. (2005). Evidence for Late-Pleistocene thermokarst in the New Jersey Pine Barrens (Latitude 39 degrees N), Eastern USA. *Permafrost and Periglacial Processes* **16**, 173-186.
- Fuchs, M., and Wagner, G. A. (2005). The chronostratigraphy and geoarchaeological significance of an alluvial geoarchive: comparative OSL and AMS C-14 dating from Greece. *Archaeometry* **47**, 849-860.
- Gell, P. A., Bulpin, S., Wallbrink, P., Hancock, G., and Bickford, S. (2005). Tareena Billabong - a palaeolimnological history of an ever-changing wetland, Chowilla floodplain, lower Murray-Darling basin, Australia. *Marine and Freshwater Research* **56**, 441-456.
- Godfrey-Smith, D. I., Bouchet-Bert, L., Von Bitter, P. H., and Storck, P. L. (2005). Thermal activation characteristics and thermoluminescence of chert from the red wing, Ontario region, and its putative heat treatment in prehistory. *Geochronometria* **24**, 13-20.
- Godfrey-Smith, D. I., Scallion, P., and Clarke, M. L. (2005). Beta dosimetry of potassium feldspars in sediment extracts using imaging microprobe analysis and beta counting. *Geochronometria* **24**, 7-12.
- Goedicke, C. (2006). Assessments of environmental dose rates in luminescence readers using α -Al₂O₃:C. *Radiation Measurements* **41**, 36-39.
- Greilich, S., Glasmacher, U. A., and Wagner, G. A. (2005). Optical dating of granitic stone surfaces. *Archaeometry* **47**, 645-665.
- Grün, R., Stringer, C., McDermott, F., Nathan, R., Porat, N., Robertson, S., Taylor, L., Mortimer, G., Eggins, S., and McCulloch, M. (2005). U-series and ESR analyses of bones and teeth relating to human burials from Skhul. *Journal of Human Evolution* **49**, 316-334.
- Harrison, R. W., Newell, W. L., Bathani, H., Panayides, I., McGeehin, J. P., Mahan, S. A., Ozgur, A., Tsiolakis, E., and Necdet, M. (2004). Tectonic framework and Late Cenozoic tectonic history of the northern part of Cyprus: implications for earthquake hazards and regional tectonics. *Journal of Asian Earth Sciences* **23**, 191-210.
- Hashimoto, T., Yawata, T., and Takano, M. (2005). Comparison of naturally accumulated radiation-doses between RTL, BTL, OSL, and IRSL using white minerals from burnt archaeological materials and usefulness of RTL-dating from quartz extracts. *Geochemical Journal* **39**, 201-212.
